PROFILE

Experienced software developer with 3 years in the industry, including one year as a freelancer and two years in an IT company. Primarily focused on backend development, I have a strong track record of building robust backend systems and managing databases to deliver seamless integration with frontend applications. I'm also proficient in front-end development and have contributed to both web and mobile applications. Skilled in DevOps practices, particularly CI/CD pipelines and cloud services like Azure and DigitalOcean, I thrive in agile environments and am committed to delivering high-quality, scalable solutions.
